JOSÉ AGUSTÍN SPACCESI

Design and Manufacture

ABOUT ME

I am a multidisciplinary person interested in many fields, mostly related to design and engineering. My studies are very generic and I am restless and curious. All that gives a wide background in many different branches of engineering, as well as in many other fields, making me the best person to deal with a problem and find a solution.

EXPERIENCE

Master's Thesis Student Machine Design Department on KTH

- Analysis of design methods for failure detection on gears.

Spring 2020
STK, Sweeden

Bachelor's Thesis Student Università degli studi di Trieste & KITO Chain Italy

- Data analysis for anticipation of future demand.

Spring 2018
Trieste, Italy

EDUCATION

Master's Degree in Industrial Technology Engineering Universitat Politècnica de València

- PROMOE and Magellan Exchange Programs in Weber State University
- Erasmus+ in the KTH Royal Institute of Technology (ITM)

2018 - 2020

VLC, Spain
Utah, USA
STK, Sweden

Bachelor's Degree in Industrial Technolgy Engineering Universitat Politècnica de València

- Elected twice as class representative
- Mechanics, Electronics, Automation, Materials, Industrial building, Projects, Industrial organization and Management.
- Erasmus+ in the Università degli studi di Trieste

2013 - 2018

VLC, Spain

Trieste. Italy

LANGUAGES

Spanish

Native

English

Full Professional Proficiency

Italian

Limited Working Proficiency

SKILLS

CAD (INVENTOR, SOLIDWORKS...)

GRAPHIC DESIGN (ADOBE SUITE)

3D PRINTING

DATA ANALYSIS

PROGRAMMING

ENGINEERING
